# The DGS "Interactive" Photobooth

The DGS Photobooth is just an incredibly economical way of adding even more superb fun and entertainment to your function – capturing it forever at the same time! Our "Open" Booth was originally created for a School Prom, due to requests to allow whole Tutor Groups to be captured in the same shot! So, the simple use of a wide, black-curtain backdrop (14ft x 8ft), with a vast "treasure-chest" of various, bright-coloured props (about 5 suitcases full!) to

cope with all the numbers, means that we can use "on-camera" flash with our usual Hi-Res cameras – avoiding the need for any large studio lighting set-up. This also provided the ability for non-participating guests to also be entertained by viewing the fun precisely as it happened!

"Boothers" can range from 1-year-olds right through to 90-year-olds! Our "squash-free" Booth can be also used for just about any type of indoor – or, sometimes even, outdoor – social functions. Including any of the following:

- Weddings, Blessings, Christenings;
- Parties, Discos – including Hen- or Stag-Parties;
- Birthdays, Anniversaries, Retirements;
- School Proms, End-of-Year Discos;
- Xmas, Halloween or Themed Parties;
- Business Team-Builds, Staff Breakfasts, AGMs;
- Fetes, Pub/Hotel/Venue Promotional Events, etc.

## Our Photobooth Procedure

Individuals, couples, small or very large groups simply choose a selection of props for themselves – eg, a wig, a hat, some glasses and a hand-held prop. They then line-up in front of the backdrop and pose for us, whilst we capture around 12 high-res, action shots. Our renowned entertainment & social skills also allow us to interact with the participants – prompting them for various funny poses – if and when required! Guests can also enjoy unlimited visits too and even add their own props!

Unlike the Photobooth machines, no prints are supplied on the night. Instead, we encapture the modern trend of people wanting them on Social Network sites! Once the images are all checked and edited, we provide a large Facebook collection of the event for everyone to enjoy the next day. This allows your guests to view, share, like and comment on the photos – creating a true, interactive keepsake of the event! The edited high-res images are also uploaded to your own password-protected Pro-Gallery – where they are stored indefinitely, giving access to over 100 high-quality products – ranging from small prints to poster prints to large canvas prints! Each of your guests are

given sticky labels as they pass through the Booth, providing them with the web-links and passwords to view all the online collections! The digitals can also be used for large-screen TV products, such as keepsake or display DVDs – and we can also work in conjunction with certain Video-DJs to display them on screens during your event! With the abundance of props that we hold, we can also arrange memorable dancefloor shots too! "Doing the Conga" is a favourite,

where the line is led into the Booth area to collect props to wear – the line then returns to the dancefloor with everyone wearing them! ("[Wedding Conga Video](#)") Once the music ends, it's time then to do a memorable group fun-shot (as the image above) of everyone wearing the props!

Formal and casual photos are also included in the packages! Check out the 4-Generations shot below! Then, please click on the following link, select any one of the appropriate collections that relate to your event, imagine your guests experiencing the same – and try not to smile!
